We can help transform your eyelashes for a longer, thicker, more defined look! Lash extensions are weightless, and give you a more sensual look both day and night. Whether you are going to the beach, getting married or planning a night out,

They are incredibly long lasting and weightless on your eyes, and are resistant to water, showering, sweat, exercise, tears, swimming and even sleeping.

Unlike traditional false lashes that are attached to the eyelid causing discomfort to the eyes, our extensions are applied directly to the individual lash. One lash at a time is applied via state-of-the-art technique. They are very comfortable on the eyes.
